Premenna A je sucastou textu, tak ako aj rovnica $1 + 1 = 2$.

Potom mozeme mat aj samostatne a cislovane rovnice, ktore piseme do prostredia "eqnarray":

$$1 + 1 = 2 \tag{1}$$

Ak chceme mat viacero rovnic, tak

$$
\begin{aligned}
1 + 1 &= 2 \tag{2}\\
4 - 1 &= 3 \tag{3}\\
1 + 1 &= 2 \tag{4}
\end{aligned}
$$

Ak nechceme cislovat rovnicu tak

$$
\begin{aligned}
1 + 1 &= 2 \tag{5}\\
4 - 1 &= 3\\
1 + 1 &= 2 \tag{6}
\end{aligned}
$$

Moja rovnica je Rov. (7) alebo ked mame balik AMS Math potom moja rovnica je Rov. (7).

$$1 + 1 = 2 \tag{7}$$
